VIDEO COMPLIANCE REPORT

With reference to the statement #2 mentioned in the affiliation letter no: **CBSE/3630465/SL-90239-2324/2023-24** (The composite science lab is not properly laid out with one table with physics equipment in the center and other equipment, presumably for chemistry and bio placed on side slabs, which is likely to hinder experimentation and is not as per norms. The slide slabs may be used for storage only. There should be work stations for bio and chem sections with utilities and shelves for reagents and proper seating. The school shall upgrade the science lab as per SOP of the Board within 3months and submit compliance on SARAS with videography).

This is to submit compliance of the deficiency mentioned above.
Kindly find the attached videographic evidence.
